Publication: ***Private Client Global Elite***

In recognition of Kobre & Kim's deep experience representing private clients around the world, the 2024 Private Client Global Elite Directory has recognized Adriana Riviere-Badell, Evelyn Sheehan, Mark Rowlands, Nicholas Surmacz and Polly Wilkins among its list of the world's top private client lawyers.

The five lawyers have earned places in the categories of "Private Client Global Elite" and "Private Client Global Excellence."

The publication explains: "The Private Client Global Elite Directory was created with the awareness that referrals and recommendations are absolutely key to the private client sector. To know that someone is an excellent technical practitioner is not enough, it is integral for the maintenance of client relationships that the advisors you refer to your clients are good personality fits and masters of communication. As such, rather than a listing of private client advisors as chosen by a third party, these are the top 250 excellent individuals as chosen by their own peers within the private wealth industry."
