Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Andrew Stafford KC Discusses Recovering from Cyber Fraud and Ransomware Attacks at C5 Fraud Conference Seminar

March 18, 2022

Instances of cyber fraud and ransomware attacks have grown more frequent and sophisticated, with global companies lying in the crosshairs. Kobre & Kim's Andrew Stafford KC, who focuses on international asset tracing and recovery, joins the C5 Fraud, Asset Tracing & Recovery Geneva conference to share next steps victims should take during a seminar at 10:30 am Geneva time, March 25, 2022.

The panel, "Cyber Fraud: You've Been Hit with a Cyber Fraud or Ransomware Attack, What Happens Next?", examines current trends in the type of cyber fraud and ransomware attacks global companies face; shares tips on addressing extortion and ransom threats, including on related cross-border legal issues; analyzes how assets and data can be traced and recovered; and shows how companies should engage with law enforcement, regulators and governments around the world.

Joining Mr. Stafford is Adam Fee of Milbank LLP (USA).
