Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Andrew Stafford KC to Speak at Harbour Litigation Funding's Enforcement and Asset Recovery Event

December 2, 2019

Kobre & Kim's Andrew Stafford KC is slated to speak at Harbour Litigation Funding's Enforcement and Asset Recovery event taking place on December 4th in London.

As an English barrister and King's Counsel (in addition to being a veteran in the fields of cross-border judgment enforcement and asset recovery), Andrew promises to lend his unique insights when he takes the podium. Other topics likely to be discussed at the event are asset preservation strategies, political risk developments, packaging entitlement to judgments, the impact of a no-deal Brexit, and recovery of new asset classes.
