

News

Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Kobre & Kim Joins Latin America Digital Asset Recovery Panel with Pinheiro Neto Advogados, TozziniFreire and Chainalysis, Inc.

June 22, 2021

The cryptocurrency boom and lagging government regulations are colliding in Latin America, exposing digital assets to fraudulent activity. Kobre & Kim and the Brazilian Chamber of Digital Commerce will discuss recovering misappropriated assets at the co-hosted webinar, “How to Trace and Recover Cryptoassets,” on June 24, 2021 at 10:00 AM ET / 11:00 AM BRT.

Kobre & Kim’s Benjamin Sauter will moderate the panel, joined by Evelyn Sheehan and Leonardo Palhares; Fernando Mirandez of Pinheiro Neto Advogados; Isadora Fingerhann of TozziniFreire; and Amanda Wick, Chief of Legal Affairs at Chainalysis, Inc. Together, the group will explore how the lack of strict government regulations is affecting the burgeoning crypto industry in Latin America and identify key considerations for investors of digital assets.
