Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Evelyn Sheehan Explores the Recent Push for Transparency, Asset Protection and Litigation Risk Management at Private Client Forum Americas

February 29, 2024

As more jurisdictions take steps to increase transparency of corporate and asset structures – such as public databases of ultimate beneficial owners – many ultra-high-net-worth individuals (UHNWIs) with a legitimate need for confidentiality could become subject to security risks, unwarranted scrutiny and misinformed allegations.

Kobre & Kim's Evelyn Sheehan, who focuses on advising UHNWIs in cross-border investigations and enforcement actions, examines the issues during the Private Client Forum Americas on a roundtable discussion, "The Recent Push for Transparency: Asset Protection and Litigation Risk Management," on February 28, 2024.
