Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Evelyn Sheehan Unpacks Legal Developments for Digital Assets in Private Client Forum Americas 2022

July 13, 2022

Despite the impact they have on headlines, digital assets – including cryptocurrencies and non-fungible tokens (NFTs) – are relatively new technologies and forms of property. As these assets become increasingly mainstream, legal systems around the world are having to reckon with them as they become subject to regulations, thefts and disputes.

Kobre & Kim's Evelyn Sheehan, a former U.S. federal prosecutor focused on asset forfeiture and recovery, discusses the latest developments during the Private Client Forum Americas 2022 in Playa del Carmen, Mexico, on a panel at 11:50am local time, Thursday July 14, 2022.

The panel will also feature Gilead Cooper QC of Wilberforce Chambers and Stephanie Bernard of Carey Olsen.
