Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Evelyn Sheehan Explores U.S. Jurisdictional Developments Regarding Offshore Trusts in STEP Caribbean Conference

May 12, 2023

The United States, Canada and the United Kingdom are key jurisdictions for offshore private wealth practitioners, especially when their clients are at risk of becoming – or have already become – embroiled in a contentious cross-border dispute. Kobre & Kim's Evelyn Sheehan, who focuses on representing international private clients, their families and trustees in cross-border litigation, investigations and enforcement actions, discussed critical developments affecting offshore trusts during the STEP Caribbean Conference in Panama.

The session, "USA, Canada, UK – Jurisdictional Updates," will also feature Brian Cohen of Gowling WLG and Rose Chamberlayne of Wiggin Osborne Fullerlove.
