Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Jef Klazen to Discuss Breaking Trusts and Recovering Assets in Fraud Cases

February 25, 2019

Kobre & Kim attorney Jef Klazen, who has extensive experience in cross-border asset tracing and recovery, will explore asset protection trusts in the U.S and how to impede individuals attempting to protect assets from creditors within them as part of the panel entitled “Asset Protection Trusts: How to Break Them,” at KNect365 Law’s Asset Recovery International conference in Dublin, Ireland on March 1.

Klazen will examine key jurisdictions known for asset protection trusts, both domestic and offshore, and discuss the way in which such vehicles may be unpacked to recover assets in instances of fraud.
