Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Jeremy Bressman to Join Virtual Panel on Asset Recovery in the Middle East

October 23, 2020

As the Middle East's economic power rises, asset recovery is becoming more in demand, and practitioners will need to understand its intricacies in the region. Join Kobre & Kim's Israel-based Jeremy Bressman as he speaks on a panel in the ThoughtLeaders4 FIRE Middle East Give Me My Money digital conference at 5pm Dubai time/1pm London time, October 27, 2020.

The panel, titled "After the Arbitration Lord Mayor's Show," also features Walid Azzam of Hedef & Partners, Hussein Haeri of Withers and Nicholas Bortman of Raedas. Bressman will join them in walking through legal and non-legal strategic considerations when developing an asset recovery strategy in the Middle East; the rise in third-party funding; and the impact of COVID-19 on enforcement strategies and tactics.
