John Han and Reorg on How Activist Investors Can Apply Creative Enforcement to Distressed Debt Strategies

April 8, 2021

Kobre & Kim's John Han joined the "China Fortune Land Development State of Play, Trading in Distressed Debt Through Creative Enforcement" webinar hosted by Reorg on Wednesday, April 7 to discuss the default of China Fortune Land Development (CFLD) and the resulting shockwaves in the Chinese high-yield market.

Alongside moderator Shasha Dai and fellow panelist James Shi of Reorg, Mr. Han focused on potential courses of action by which offshore investors may unlock defaulters' onshore assets and recovery mechanisms through which activist investors may maximize their value realization.
