

## News

Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

### **John Han and Jason Kang Share Award Monetization Strategies Against China-Based Debtors in HKIAC Seminar**

September 22, 2021

Often, creditors who wait until they have won a final arbitral award against China-based debtors to begin enforcement end up with nothing, as debtors find ways to avoid their obligations. But as Kobre & Kim's Greater China-based lawyers John Han and Jason Kang will explain in a Kobre & Kim-hosted seminar during the Hong Kong Arbitration Week, creditors can adopt an early global enforcement strategy to achieve the best monetization results.

The seminar, "Strategies in Monetization of Arbitral Awards Against Greater China-Based Debtors," will also feature Seung Min Lee of Peter & Kim and Haidi Teng of King & Wood Mallesons. It will take place at 11:00 am Hong Kong time, October 26, 2021, virtually and in person at the Hong Kong International Arbitration Centre.
