Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

John Han Speaks at Mandarin Arbitration Salon

October 11, 2022

From starting a career in cross-border claim monetization and dilution to the importance of creative thinking to drive settlement catalysts and outcomes, Kobre & Kim's John Han shared his insights as a practitioner during Mandarin Arbitration Salon's latest "仲裁沙龙" ("Chinese Arbitration Conversations") session on October 5, 2022.

Mr. Han focuses his practice on global matters involving monetization and demonetization of distressed bonds, personal guarantees, claims, judgments and arbitral awards. The sessions are part of a series created by the salon's founder, Elizabeth Chan of Allen & Overy, to provide informal small-group discussions in Mandarin between leading arbitration practitioners and those at the beginning of their careers.
