

Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Kobre & Kim and Canal Arbitragem Host Interactive Asset Recovery Simulation During São Paulo Arbitration Week 2025

October 24, 2025

As part of São Paulo Arbitration Week 2025, Kobre & Kim and Canal Arbitragem co-hosted a breakfast panel featuring a live simulation on the enforcement of arbitration awards through onshore and offshore asset recovery strategies.

The session brought together Victor Dias Vieira Clementino and Sergio Aguiar of Kobre & Kim, together with Leticia Abdalla of CFGS Advogados, to explore how asset tracing, jurisdictional coordination, and enforcement sequencing can enhance the effectiveness of award recovery.

The interactive format encouraged audience participation, with attendees engaging in dialogue on real-world enforcement challenges and the evolving role of collaboration between onshore and offshore teams in complex arbitration cases.
