Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Kobre & Kim São Paulo Team Hosts Breakfast Roundtable on Monetizing Distressed US-Dollar Bonds

April 12, 2024

As global financial conditions have tightened dramatically over the past few years, Brazil-based investors may find opportunities to invest in and monetize distressed high-yield US-dollar bonds. Kobre & Kim's São Paulo team – Ana Frischtak, Carolina Leung and Sergio de Aguiar – along with Kobre & Kim's John Han hosted an intimate breakfast roundtable to discuss these issues on April 12, 2024.

During the roundtable, the team led a discussion on distressed high-yield US dollar bonds, long and short opportunities, underwriting insolvency and enforcement risk, restructuring, and issuer corporate structures in liquidation scenarios for Brazil-based investors.
