

Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Kobre & Kim to Host Virtual Panel on Battle-Tested Techniques to Enforce Judgments and Awards Against Sovereigns

September 16, 2020

Monetizing judgments and arbitration awards against sovereign entities can lead to significant returns for investors, but it can become incredibly complicated. Kobre & Kim will be hosting a virtual panel to discuss recent challenges and opportunities within this space, as well as battle-tested and unconventional techniques to use against sovereign entities on Tuesday, September 29, 11am EDT / 4pm BST.

The panel, “Clashing with Titans: Enforcing Judgments & Awards Against Sovereign States,” will feature Kobre & Kim’s International Judgment Enforcement and Asset Recovery team, as well as distinguished guests Nikos Lavranos of NL Investment Consulting and Daniel Nardello of Nardello & Co. Together, they will discuss the key issues investors should consider to maximize returns on a sovereign-adverse claim, from the initial evaluation stages and due diligence to the effective execution against a sovereign’s assets.
