Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Kunhee Cho Explores Obtaining Information in Cross-Border Disputes at IAKL European Conference

July 13, 2023

The availability and process of obtaining information varies in different jurisdictions around the world. Global counsel to navigate and leverage such differences is key to success in cross-border disputes. Kobre & Kim's Kunhee Cho explored this process during a presentation at the International Association of Korean Lawyers European Conference on July 8, 2023.

Mr. Cho explored effective judicial information gathering methods available in civil and common law systems, and information gathering outside judicial means. The case studies illustrated a variety of non-conventional strategies in obtaining information in cross-border disputes.
