Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Nick Cherryman Joins Panel on Debt Enforcement Strategies for Indian Banks with Non-Performing Loans

November 17, 2020

A critical issue for Indian banks has been the amount of non-performing loans weighing down their balance sheets and profitability. Fortunately, as Kobre & Kim's Nick Cherryman will discuss on an InformaConnect virtual panel at 4:45pm New Delhi time / 11:15am London time, November 19, 2020, there are global solutions to this seemingly intractable problem.

The panel, titled "Debt Enforcement: Global Solutions to an Indian Problem" and part of the India Disputes conference sponsored by Kobre & Kim, will also feature Kiran Chonkar of BDO India and Manavendra Mishra of Khaitan & Co. Together with Mr. Cherryman, the panel will discuss the benefits of a global debt enforcement strategy, utilizing third-party funding and aggressive multijurisdictional techniques. They will also examine the impact of COVID-19 and look into recent case studies as examples of cross-border debt enforcement in an Indian context.
