On-Demand Webinar: Kobre & Kim's Caribbean and Asia Teams Discuss Approaches to Finding and Recovering Assets Hidden in Offshore Locations

May 14, 2015

During this webinar, a panel of Kobre & Kim's globally recognized team discusses how sophisticated judgment debtors and fraudsters frequently protect assets by holding them in a variety of complex offshore structures and vehicles around the world and how combating these techniques often requires multifaceted strategies to ensure efficient and prompt recovery.

The panel discussion includes:

- a case study analysis based on real-world scenarios,
- a breakdown of the various tools insolvency administrations can use to conduct global investigations and asset recoveries,
- an examination of the complexities of the international judgment enforcement and asset recovery process, and
- an exploration of tactics that should be considered when implementing a global strategy.
