Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Paul Hughes to Chair Panel on Best Practices in Obtaining Information for Lawyers During RILPA Conference in Dubai

February 28, 2023

A good amount of high-quality information is the foundation of any legal strategy in global arbitral award enforcement or restructuring campaigns. Kobre & Kim's Paul Hughes, who focuses on complex cross-border disputes with a nexus to the United Arab Emirates and wider Middle East, will chair a panel on the best practices to accessing critical sources of information during the Restructuring Insolvency and Legal Practitioners Association (RILPA) Conference in Dubai on March 9, 2023.

The panel, "Best practices and pitfalls in obtaining information from investigators and lawyers," features practical tips from investigators and examines the latest developments in the routes for lawyers to obtain information, from Section 1782 discovery in the U.S. to Norwich Pharmacal gateways and more.

Joining Mr. Hughes are Faris Shehabi of Dentons, Nikita Vaidya of Ankura, Daniel Hall of Burford Capital and Seema Bono of Pinsent Masons. We are proud to serve as one of the event's headline partners.
