Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Steve Kobre and Jef Klazen to Participate in 2026 Distressed Investing Summit

March 23, 2026

Kobre & Kim's Steve Kobre will moderate, and Jef Klazen will participate in, the panel "Protecting Private Credit Deals: Pre-Transaction Safeguards and Post-Transaction Recovery Strategies" at the 2026 Distressed Investing Summit, hosted by The M&A Advisor in Palm Beach, Florida.

As part of a summit that brings together leading investors, restructuring professionals, and dealmakers to examine the evolving distressed and special situations landscape, the panel will focus on how private credit participants can protect value across the lifecycle of an investment. The discussion will address pre-transaction structuring and diligence considerations, as well as post-transaction monitoring, enforcement, and recovery strategies when investments encounter stress or distress.

Steve and Jef will be joined by Andrew Rabinowitz of Arena Investors LP, Hadley Ma of Ferghana Investment Partners LP, and Jeff Marwil of Ocean Boulevard Strategic Advisors, LLC, offering perspectives from across private credit, investing, and advisory roles active in today's distressed markets.

The session taking place on March 24 will provide practical, experience-driven insights for investors and advisors navigating increased credit stress and complexity in the current market environment.
