Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Vicky Kay Attends UK-Tanzania Business Forum

December 6, 2022

Mirroring the rest of the East Africa region, Tanzania has experienced a healthy rate of economic expansion in recent decades, presenting opportunities for foreign investors that deliver sustainable mutual prosperity and growth. Kobre & Kim's Product Director for International Private Client, Vicky Kay, joined the UK-Tanzania Business Forum on November 29, 2022, to engage with local and foreign businesses in discussions on how to leverage these opportunities and address the challenges facing stakeholders in the region.

The forum featured panel sessions providing insights on the opportunities available in Tanzania, particularly for businesses interested in infrastructure, renewable energy, agriculture and mining, and included discussions on overcoming the hurdles to doing business in Tanzania. We thank the hosts and sponsors for the successful event.
