Kobre & Kim recently opened an office in Hong Kong, marking the first U.S. litigation firm to offer an integrated global platform of U.S.-qualified lawyers and UK-qualified barristers and solicitors practicing from offices in the U.S., Asia, and Europe. Led by former Morgan Stanley senior litigator William McGovern, the firm will focus on the representation of Asian clients under investigation by U.S. authorities and clients involved in high-stakes U.S. litigation against international financial institutions. In coordination with its other offices, Kobre & Kim will also serve Asian clients in international arbitrations and litigation in the U.S., UK, and all the major offshore jurisdictions, particularly in the Caribbean.
