Lou Petreski is the firm's Global Information Technology Officer, responsible for developing and executing coordinated IT strategies across the firm's different business units and regions, creating a digital work environment that is seamless, effective, and secure. He has experience in industries such as banking, consumer finance and corporate trade.

Before joining Kobre & Kim, Mr. Petreski held various positions including Director, Head of Change and Strategy Execution for Barclays, Cards & Payments; Executive Vice President and Chief Information Officer at Active International; and Chief Information Officer at GE Capital Bank. He has led IT organizations consisting of up to 230 team members and managed budgets of up to US \$120 million per year.

Mr. Petreski earned his BBA in management information systems from Pace University.
